

Full Stack Developer with hands-on experience in building modern web applications using **React.js**, **Next.js**, **Node.js** and **Go**. Proficient in developing **RESTful APIs**, creating **responsive and user-friendly interfaces**, and managing databases effectively. I am known as a collaborative team player with a strong passion for delivering innovative and scalable tech solutions. Always eager to learn new technologies and improve code quality through best practices.

EXPERIENCE

BACKEND DEVELOPER (INTERNSHIP) | PT NASHTA GROUP

Jul 2025– Present

- Maintain and enhance the functionality and stability backend services in the production environment, primarily utilizing Golang, gorm, Postgres and Grpc
- Ensure the overall health and integrity of the backend systems, including implementing necessary code changes and updates
- Build and integrate RESTful APIs in a microservices architecture
- Troubleshoot, debug, and resolve production issues to ensure minimal downtime and optimal system performance

FRONTEND DEVELOPER (INTERNSHIP) | PT INNDIVO TEKNOLOGI

Jan 2024 – Jul 2024

- Collaborated with the backend team to integrate APIs smoothly, enabling real-time data interactions and ensuring functional consistency across the application.
- Worked closely with the design team to translate Figma designs into clean, responsive, and pixel-perfect interfaces.
- Delivered fully responsive layouts, optimizing user experience across desktop, tablet, and mobile devices using modern CSS frameworks like Tailwind CSS.
- Proactively identified and resolved UI/UX issues, improving application performance and accessibility for diverse user bases.

PROJECT

MOVXTAR MOVIE APP [DEMO](#)

React.js, Tailwind CSS, Go, PostgreSQL, Docker, Midtrans

- Built a movie ticket booking platform with Go backend and React frontend
- Implemented secure payment processing using Midtrans payment gateway
- Containerized application with Docker for deployment consistency
- Implemented seat selection, movie details, and user profile features for complete booking functionality.

E-WALLET APP

React JS, Framer Motion, Tailwind CSS,

- Designed with responsive layouts and smooth modern animations to enhance user experience.
- Core features include real-time balance management, transaction processing, top-ups, and activity history.
- Features include balance tracking, transaction history, top-up functionality, and secure PIN-based access

FASTPIZZA APP [DEMO](#)

React JS, Tailwind CSS, Daisy Ui

- Developed FASTPIZZA APP, a web-based pizza ordering application.
- Used **React**, **Tailwind CSS**, **React-Router**.
- Focused on intuitive user interface, responsive design, and efficient order and cart management.

EDUCATION

KODA TECH ACADEMY - *FULL STACK WEBSITE GO BOOTCAMP*

Apr 2025 - July 2025

- Focused on mastering **full stack web development**, including algorithms and data structures.
- Built projects using React.js, Go, Node.js, and PostgreSQL
- Applied **containerization with Docker** and adopted industry-standard development practices.
- Gained in-depth understanding of **Go** and implemented RESTful APIs using the **Gin web framework**.

UNIVERSITY GUNADARMA – Information System| 3.4

Jan 2020 - Sep 2024

- Learned and applied principles of system design and database management to develop efficient information systems..
- Designed and implemented ERD (Entity-Relationship Diagram) and database models to solve realworld business problems..
- Learned frontend and backend fundamentals, including RESTful API integration.
- Practiced version control using **Git** and implemented real-world deployment strategies.
- Worked collaboratively in teams using **Agile/SDLC** methodologies to build real-world projects.

SKILLS

Technical Skills: HTML, CSS, Tailwind CSS, PHP,Bootstrap, JavaScript, Node.js, React.js,Express.js, Next.js, PostgreSQL, MongoDB, Redis, Firebase, Go, Git, Gin, Docker, VPS,

Soft Skills: Teamwork, Organization, Collaboration, Creativity, Curiosity.

HONOR AND AWARD

- HACKERRANK -JAVASCRIPT BEGINNER 2025
- HACKERRANK -JAVASCRIPT INTERMEDIATE 2025
- Koda Bootcamp – Fullstack Web Golang
